*The great gift of the Enneagram is that it exquisitely describes who you are not. It shows the veiling of true consciousness by habits of egoic identification. When these habits of mind are revealed, there is a clear choice to end the false identification and realize your true nature. ~ Eli*

25 Years ago Eli Jaxon-Bear developed a radical new model of the Enneagram that provides depth, insight and the possibility of realization.

Eli met his final teacher Sri H.W.L Poonja in 1990. After confirming his realization his teacher sent him back into the world to share his unique psychological insights into the nature of egoic suffering.  
Eli is the author of 'The Enneagram of Liberation – from Fixation to Freedom'
